

## Distribution Management Solutions

Using supply chain management concepts, SBS Group builds distribution software solutions to eliminate areas of waste. Maintain tight control over distribution and streamline your pick/pack/ship cycle to gain a competitive advantage. With a truly integrated solution you can better manage inventory, fill orders faster and provide e-commerce - driving superior customer service.

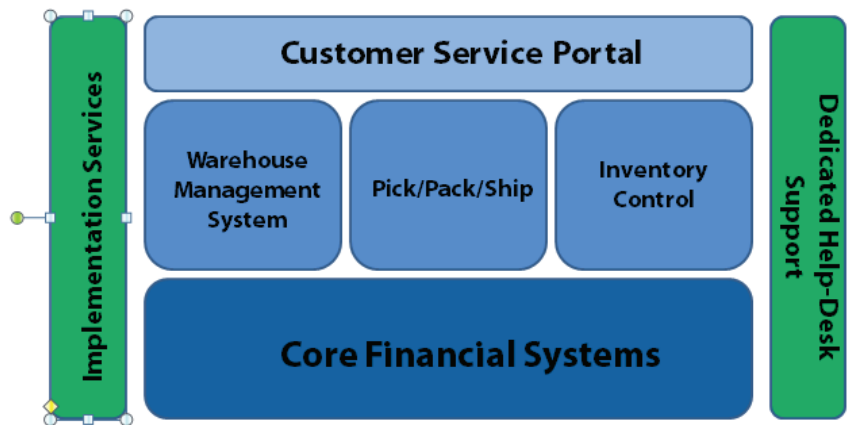

Improve sales order processing, simplify pricing matrices and reduce one-offs and exception processing with SBS Group's distribution management software solutions. Tailored for wholesale distributors

An integrated solution that provides you:

**Efficiencies in Order Processing** - provide customers with fast and accurate answers while filling orders faster and tracking sales all while lowering costs per transaction.

**Instant & Accurate Reporting** - keep cash flow high and shareholders in the know with flexible and up-to-date reporting from web portals.

**Inventory Control** - through one connected system, maintain control of purchasing, inventory and sales order processing.

We specialize in providing distribution software solutions to Food & Beverage, Industrial Machinery, Floor Coverings, Chemical, Industrial Supply, Medical Equipment and Material Handling Equipment distributors along the East & Gulf Coasts. Our APICS® trained distribution consultants implement integrated software solutions that turn your business challenges into technology solutions.
