

Did You know that SBS Group has completed over 450,000 hours of implementation hours over the last decade?

Going on 25...

With 24 years of practical business experience, SBS Group delivers technology solutions in the areas of finance, sales & marketing and business operations. Our work has been nationally recognized and our clients have rewarded us with long term relationships which attest to the value we deliver.

Mutual Exploration

The SBS approach to crafting a solution that exactly meets a client's needs involves mutually exploring the client's business environment. We don't subscribe to a one-sided tell all which produces highly opinionated alternatives that have little basis on fact. We analyze current business processes and needs, explore their impact and work to find the right solution.

Team Collaboration & Knowledge

Comprised of CPAs, former CFOs, and technical specialists we provide small, mid-sized and large businesses with a multi-disciplined approach that addressed the total needs of our clients. Our partners, who include Microsoft, IBM, HP, Cognos, Deltek, Citrix, Covad and Sage Software, have recognized us as trusted leaders in providing business management solutions.

Our Company

SBS Group has a dedicated focus to support our overall mission of solving your business issues on-time and on-budget. SBS Group is uniquely positioned to mutually explore how we can craft a solution which exactly fits your business needs. We work to maintain the status of being a trusted partner to our clients by making sure we enable quick and efficient communication with each member of the client's team. Our headquarters office is located in Woodbridge, New Jersey; with other operating offices in Philadelphia, New York, Boston, Toledo, Houston, Baton Rouge, New Orleans and Washington, DC.
